

YOUNG PEOPLE FOR THE FUTURE OF SUSTAINABLE RURAL DEVELOPMENT

www.forum-synergies.eu/article154.html

DESCRIPTION

Forums Synergies offers a Scholarship Programme - an exchange programme for young people. We are addressing both

- **young people** involved in rural development activities, who want to discover or improve their knowledge and their know-how in a particular field of sustainable rural development, and
- **organizations or entrepreneurs** from rural areas, who would like to host young people to transmit them a particular knowledge and to share their experience.

The Scholarship Programme offers to the trainee to discover and learn from the experiences and practices of people and organisations dedicated to sustainable local and rural development, while spending a time in a place of his choice (according to the hosts availability).

Goal

It is important that a real exchange between host and trainee is established and that the trainee could bring back a particular know-how as well as share his experience and knowledge about practice in his country with the host. To promote a multicultural exchange, **one host can host up to two trainees** - both scholarships can be programmed for the same time or separate time within the Scholarship duration period.

Timing and Duration

This Forum Synergies Scholarship Programme period starts in April 2019 up to November 2019.

The scholarship should last ideally 1 month. A minimum of 2 weeks and maximum up to three months can be discussed on the basis of the proposed work programme and funds available.

Online registration forms are available from **March 2019**.

Follow up

After taking part in the Scholarship Programme, both, trainees and hosts, will be invited also to participate in [European Rural Parliament](#) to share the scholarship experience and for hosts it will be a possibility to promote their actions to interested public.
