

Workshop template "How to implement LEADER/CLLD added value in the local development strategies" 23.6.2021

To rapporteur and moderator of working group: Please follow this template in the workshop and reporting

Rapporteur: Iro Tsimpri GR

Moderator: Anne-Michelle Ketteridge

Participants of the group: Lillia Golovatic MD, Natalia Rotari RM LEADER National Network, Krzysztof Kwatara Poland

1. What practises do you use to generate added value in your daily work? (The added value is improved social capital, good governance and better results, that are generated from the seven principles)
 - At the office (templates, working models, other...)
 - With the LAG (organising local activities, communication, engagement of local people, animation activities...)

In Moldova LEADER is very young – since 2016.

In Lilia's LAG she has 49 members of LAG – 3 managers as have 3 funds. Until now all staff have been voluntary – this has been their added value. Although help to get funding in the next programme. Co-operation has helped inspire them/give ideas. Have an office which is paid for by one of the LAG partners

In Poland it was obligatory to spend 50% of budget on creating jobs. Most popular was starting business. With NGOs too. Very interested in local traditional food projects and new food businesses. Trade on local assets. Brand name of your area and product.

Support to beneficiary is also added value beyond the money.

In Scotland the LAG has developed and delivered a small number of projects themselves based on what the animation work with community and businesses has shown they would like to see happening.

2. How do you use lessons from these practices in the development of your new Local Development Strategy? (So that the future LDS will generate added value)

Reduce the bureaucracy.

More flexibility.

LAG taking on a more active role in designing and delivering projects themselves

Communicating more about the different methodology of LEADER – it's not just money

More co-operation

Focussing on projects that cannot be funded by mainstream programmes
