

“...no man is an island...”

A story only LEADER can tell...

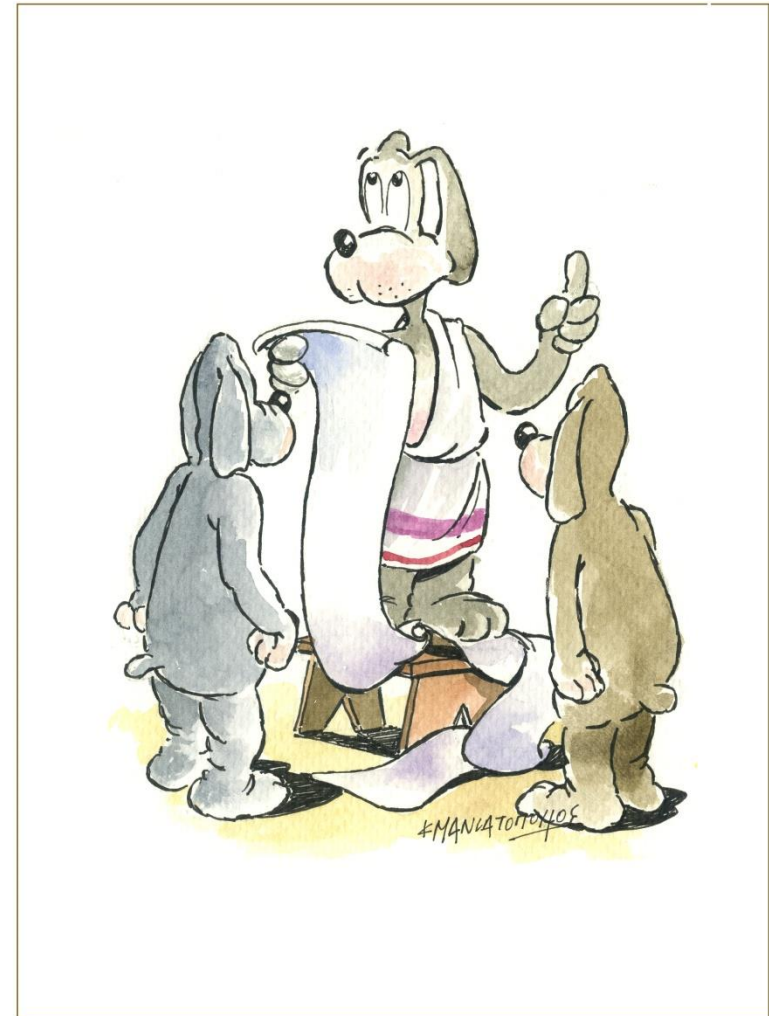

It all starts with the
LDS planning...
Oh...it is so simple so
NO “gold-platting” ...

You make research...
of course trying to
understand the
simple wording of the
regulations

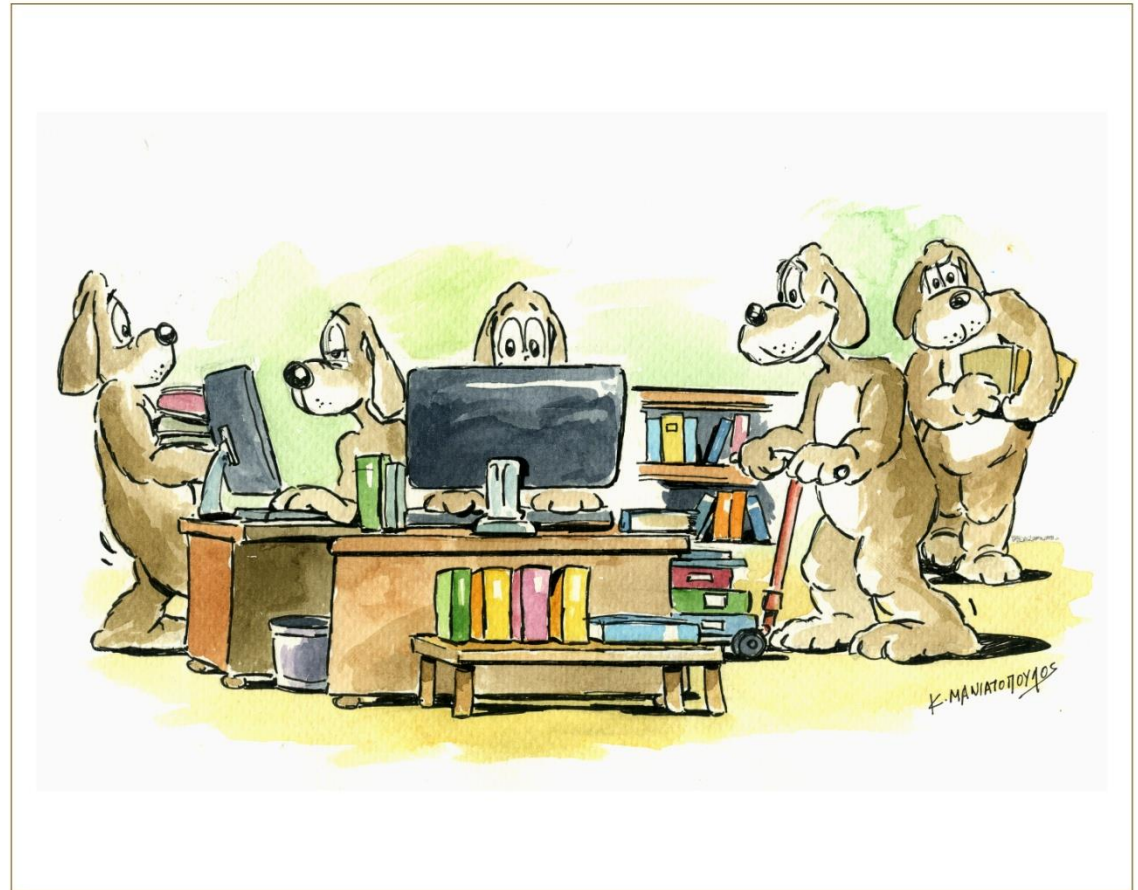

You try to come up
with innovative
ideas...

You go out in the street to explain it brings results...

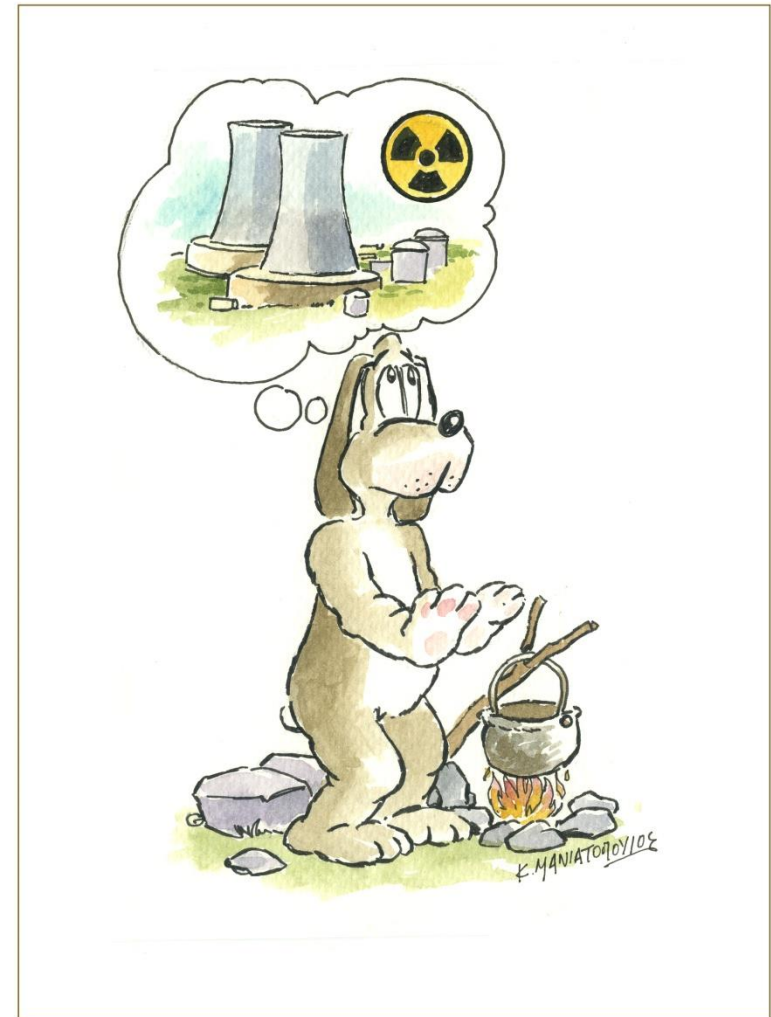

Sometimes it
feels like a play
ground...

Sometimes it
makes people
wonder
“what is
this!...”

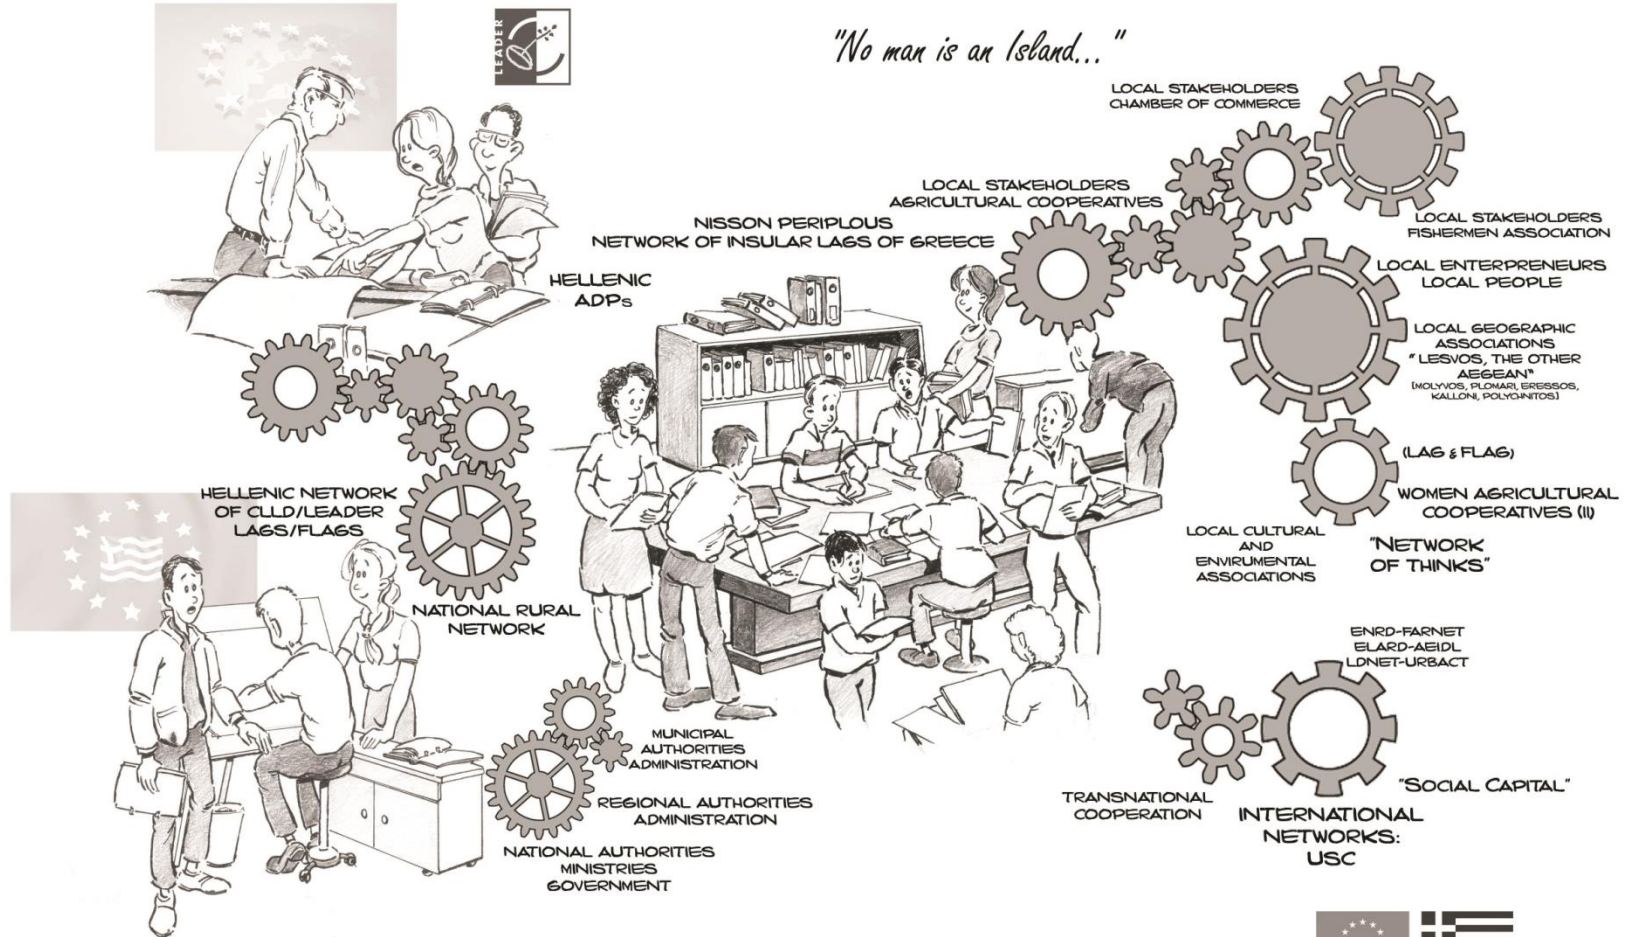

Occasionally the simple idea of a fire to feel warm becomes so complicated and “radioactive” ...

"No man is an Island..."

one world, inside the world...

Α. ΜΑΝΙΑΝΤΩΠΟΥΛΑ

It is so simple after all, "it is the Local Development Strategy!"

Lets keep it simple...

Because we
are all in the
same boat...
after all.

“...no man is
an island...”
