## 5. Area of Expertise

Please indicate your preferences for areas of expertise.

### WP3 – Basis and Beyond

Expertise in youth employment analyses in the frame of the Observatory;  
Expertise in design of the methodology of the Pilot study with focus on the impact of coworking spaces on youth employability, especially in the context of regions that are tourism dependent or transitioning energy-wise;  
Contribute to transnational policy dimension of the report; Identifying and summarising policies for review of EU Policy Framework Regarding Youth Employment and NEETS from 2008 to present, with a particular emphasis on those aged 25-29 and NEET mothers;  
Support Research Project partners in identification of case studies - regarding the impact of sharing/co-working and RnD policies, and the impact of training and youth employment policies.

### WP4 – Transnational cooperation in knowledge

Consult on transnational policy dimensions and draft a pertinent chapter in the Transnational Reports: NEETS' skills gap and employment policies, the employment potential for NEETs in alternative sectors.

### WP5 – Policy Recommendations

Counselling on transnational policy dimensions and contribution in writing the policy recommendations.
