PRELIMINARY PROGRAMME

Introduction and Methodology

14th October

Introduction:

- How to start the future of Leader – key outcomes of the transnational research project "Our Common Future" for your Local Action Group

- Roles of the LAG and office

Tools/methods

- How to use Leader as a transformation tool of your region (innovation and transformation)

- Participatory methodologies

- Introduction on climate action for LAGs

Study visits to Leader projects

15th October

During the study tour we will visit:

- Regional rural innovation center: www.startn.at
- Tourism projects connected to climate actions: www.triassicpark.at
- The regional development center: www.regio-tech.at
- Climate adoption projects and smart village projects like digital spatial planning or public energy monitoring and much more (if the weather is fine, we will use electric bikes to drive around).

Enhancing the added value of Leader

16th October

Action workshops

How to put theory into action in your own LAG

- Enhancing innovation in your own LAG

- Climate action training – strategic rural development on behalf of climate adoption actions

- AI for your daily LAG work

- Future communication & marketing of Leader
